## Work Experience

---

### Freelancing

Remote

#### FRONT-END WEB DEVELOPER

Jul. 2022 - Present

- Collaborated with clients to understand their business requirements and goals, ensuring alignment between their vision and the final product.
- Managed project timelines and created deadlines to ensure timely delivery of high-quality work.
- Developed and implemented responsive and user-friendly web interfaces using modern libraries and frameworks such as React JS, Next JS, Redux Toolkit, TypeScript, HTML, and CSS.
- Conducted thorough testing and debugging to identify and resolve any issues or bugs, ensuring optimal performance and functionality.
- Actively participated in client meetings and discussions, effectively communicating technical concepts and progress updates.
- Worked independently and efficiently to meet project objectives and deliverables, ensuring a seamless freelance experience for clients.
- Leveraged strong problem-solving skills to overcome challenges and implement effective solutions.

## Projects

---

### Feigne | Live Demo GitHub Repo

#### MOCKUP E-COMMERCE APPLICATION

Jul. 2022 - Present

- Created a mobile-first mock marketplace using Next.js, Redux.js, and Chakra UI.
- Designed and implemented basic UX design and information architecture.
- Built type-checked local and centralized state with React.js and Redux.js.
- Implemented incremental static regeneration for scalability and search engine optimization.
- Scraped product data and integrated it into an easily accessible data structure.
- Developed data-fetching functionality by building an API and using Thunks, Redux.js Toolkit, and React lifecycle hooks.
